Generation A is set in the near future in a world where bees are extinct, until five unconnected people all around the world— in the United States, Canada, France, New Zealand, and Sri Lanka—are all stung. Their shared experience unites them in ways they never could have imagined.

Generation A — Douglas Coupland : Douglas Coupland

Douglas Coupland's Generation A sees a not-too-distant world of ours devoid of bees and therefore things like fruit and flowers. A strange drug called Solon is sweeping the planet, it's effects rendering the user carefree and unafraid of the future with a deep inner peace that stops them interacting with other humans and makes them seek solitude.

Generation X.

Douglas Coupland - Wikipedia

Douglas Coupland is largely sort of awful, but he didn't completely start out that way. There's a certain inspiration to his earliest works, which comes in most concentrated form here. Sure, it's a novel made up almost entirely of the cynical listlessness of all Generation X cliches that followed, but that's the entirely appropriate result of this being the book that defined the cliches.

Generation X: Tales for an Accelerated Culture by Douglas ...

Generation X: Tales for an Accelerated Culture is the first novel by Douglas Coupland, published by St. Martin's Press in 1991. The novel popularized the term Generation X, and is a framed narrative, in which a group of youths exchange heartfelt stories
