As such, Fiat-Ansaldo took to designing a new light tank based on its successful Carro Armato L3 "tankette" for the purpose of export. The L3 was developed during the early part of the 1930s - itself being heavily influenced by the successful British-designed Carden Lloyd Mark VI Tankette- and began serial production in 1935, running to 1938 with as many as 2,500 examples ultimately delivered.

Carro Armato L6/40 Light Tank Tracked Combat Vehicle

A further development of the L3/35 light tank, the L6 went through a number of prototypes during the late 1930s. The first was armed with a sponson-mounted 37 mm main gun and a machine-gun armed turret. A later version featured a turret mounted 37 mm gun and yet another version had only twin 8 mm machine guns. Ultimately, the production configuration, named Carro Armato L6/40, was put into production in 1939, with 283 finally produced. Variants

L6/40 tank - Wikipedia

The L3/35 Carro Veloce ("fast tank") was probably one of the fastest tanks ever built; unfortunately, it was also one of the most fragile. Dubbed "tankette" more often than "tank" by its crews for its almost nonexistent armor, the L3/35's main quality, in addition to its high speed, was its two 8mm machine-guns that could devastate infantry platoons in mere seconds. Cheap and plentiful, it is ...
