A cognitive map is a graphic representation intended to capture the structure of a decision maker's stated beliefs about a particular problem. Following introductory chapters that develop the theory and techniques of cognitive mapping, a set of five empirical studies applies these new techniques to five policy areas. Originally published in 1976.

Structure of Decision -- The Cognitive Maps of Political ...

Structure of Decision is an edited volume of chapters assembled by Robert Axelrod about the importance of "cognitive maps" of political elites in various decision-making settings. Cognitive maps are representations of the causal beliefs of individual decision makers. Much of the book deals with the methods used to estimate cognitive maps and to analyze them. There are several chapters authored by the editor, one of which deals with an empirical case study of the decisions of the "Persian ...

The quality of any decision is a direct result of the quality of the effort that goes into making a decision, as well as the quality of the effort that goes into executing that decision. In other words, the anatomy of a decision is not only the sum of its parts, the skeleton that gives it structure, and the course of action, strategy or choice that it represents.
