The human body : the ultimate machine (DVD video, 2005 ...

It has been compared to many things, including machines, and the scientific world is still learning more about this structure we inhabit that we call a "body." And, while the comparisons and analogies are often accurate and telling - the brain as a computer, the heart as a pump, and so on - the concept of the human body being simply an organic "machine" is not only misleading, but it can be harmful.

Is The Human Body "The Ultimate Machine"? | Muscle ...

He calls the human body 'the ultimate machine'. 'People have invented all kinds of efficient machines, like the automobile', he says, 'but compared to this the human body is "ultra superior". 'It adapts to stress; it thrives and survives', he says. 'It can even heal itself within certain limits.

The ultimate machine - creation.com

The human body is a machine that provides us with the abil- ity to move efficiently and effectively. Just as machines are designed to perform a certain amount of work, every human body is designed to perform a certain amount of work that needs to be performed. When we perform work it stress the body based on the amount of stress imposed upon it.
